Battery Life Indicators

Indicator	Battery Power Level
Solid Green	100% to 75%
Flashing Green	75% to 40%
Solid Red	40% to 10%
Flashing Red	10% or less

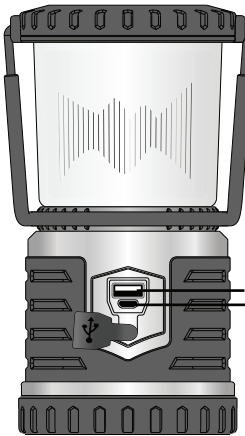

NOTE:
When unit is "ON" this is a Battery Life Indicator

When unit is "OFF" Flashing Locator (blinks RED every 6 seconds)
This is not to be confused with the battery life indicator.
If you want to know how much battery life is left turn unit "ON"

To ensure long battery life and to prevent damage from over discharge, this unit is protected by Intelligent IC (micro circuit card). In simple terms, the light will not turn on while charging to avoid battery damage.
